Art Unit: 1794

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Iohara (US 5,733,656) alone or optionally taken with Applicant admission at page 4 lines 4-5 of spec. .

The invention defined in a product by process claim is a **PRODUCT**, not a process. In re Bridgeford, 357 F. 2d 679. It is the patentability of the product claimed and **NOT** of the recited process steps which must be established. In re Brown, 459 F.2d 53.

Hence, the product defined by the product by process claims 2-6 is the polyester combined filament yarn of claim 1.

Applicant admits at page 4 of the spec that Fig 1 show a cross sectional view of the polyester multifilament yarn A according to the invention.

Iohara, **Teijin Limited Patent**, teaches a polyester combined filament yarn having the same cross sectional polyester multifilament yarn A (as applicant admission) show in Fig 3 with the claimed core portion conditions (a) to (c) and combined heat shrinkable polyester multifilament yarn B. See fig 3, abstract, col.9 lines 15-30, col.7 lines 56-end, col.8 lines 1-31, for example.

No claims are allowed.
